Torque Indicating Mechanism:

Dial

Torque Capacity:

Between 0.0 inch-pounds and 10000.0 foot-pounds

Torque Signal Method:

Dial indicator

Drive Surface Size:

3.750 inches single end

Drive End Shape:

Square single end external

Special Features:

Electrical 15-230 volts ac, 50-60hz, 16-8 watts; consists of digital strain indicator.

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
