**End Application:**

F-15 acft

**Operation Method:**

Manual

**Unit Type:**

Mechanical

**Load Receiver Type:**

Platform

**Mounting Method:**

Table

**Spring Type For Which Designed:**

Tension

**Torque Indicating Wrench Usage Feature:**

Not included

**Spring Travel Gage:**

Included

**Special Features:**

Allows the detection of improperly operating pawls without the necessity of spin testing the carrier pawl assemblies; to name: spring tension tester fixture

**Reference Data And Literature:**

To 33d-1-121

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T398-h
