General Description:

Half cylinder loops mounted on conductive ground plates; two symmetrically located gaps combined by a series-parallel wiring arrangement to drive coaxial output connector; frequency response more than 230 mhz; maximum output 5kv; maximum field change 5 x 10 to 5th; output connector gr874l-50 ohms; mass 4.5kg; 16.299 in. Lg; 14.291 in. W; 5.196in. H
