General Description:

Measures distances 1 to 35 ft; design of laser beam reflection; effective range 50 ft in bright sunlight; minpower output 0.50mw; beam diameter 64mm; min. Operating lifetime of laser apparatus 10, 000 hrs; operating voltage 115vac; 50 or 60 hz; operating current 4.0 ma; environmental operating range -104 degs f to 140 degs f; humidity type 0 to 100 pct

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
