General Description:

Displacement range 0 to 100 mils in eight full scale overlapping ranges; acceleration range 0 to 100gs in eight full scale overlapping ranges; bearing/gear ck ranges 0 to 100gs; specialcircuits to detect spike energy; one input channel w/quick connect recepticle; output: amplitude meter for readoutof displacement, velocity, and acceleration on analog scale; 8.250 in. Lg; 4.562 in. W; 3.062 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
