Current Type:

Ac

Special Features:

Range: 100hz-6mhz; calibrated gain in db; differential, absolute, reflectance test coils and probes; gates: built-in, visible, impedance plane, and swept time base modes gates; display modes: impedance plane and swept timebase; digital pushbutton control of frequency; external or internal sync; selectable high pass filter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T264-a
