Carrying Case:

Provided

Usage Design:

External

Indicator Type:

Electron-ray tube

Installation Design:

Portable

Test Type:

Distortion

Indicator Reading Type:

Single

Indicator Design:

Direct reading

Special Features:

Pwr reqs range 90.0-220.0 vac; 200.00 - 240.0 vac, 50/60 hz

Functional Description:

Used for ultrasonic bond testing equipment of metallic & nonmetallic composite material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T264-b
