Mounting Type:

Floor

End Application:

6635-01-218-4295

Drive Type:

Belt

Accessory Components And Quantity:

Dynamic balance tooling for gej85 standard eight-stage compressor

Maximum Working Weight Capacity:

1000.0 pounds

Maximum Distance Between Bearing Shoulders:

52.000 inches

Shaft Maximum Diameter At Bearing:

49.000 inches

Work Support Type:

Half bearing

Special Features:

Permanently calibrated hard-bearing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T137-e
