**Mounting Type:**

Floor

**End Application:**

6635-01-218-4295

**Drive Type:**

Belt

**Accessory Components And Quantity:**

Dynamic balance tooling for gej85 standard eight-stage compressor

**Maximum Working Weight Capacity:**

1000.0 pounds

**Maximum Distance Between Bearing Shoulders:**

52.000 inches

**Shaft Maximum Diameter At Bearing:**

49.000 inches

**Work Support Type:**

Half bearing

**Special Features:**

Permanently calibrated hard-bearing

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T137-e
