| Mounting Type: |
|---|
| Floor |
| End Application: |
| 6635-01-218-4295 |
| Drive Type: |
| Belt |
| Accessory Components And Quantity: |
| Dynamic balance tooling for gej85 standard eight-stage compressor |
| Maximum Working Weight Capacity: |
| 1000.0 pounds |
| Maximum Distance Between Bearing Shoulders: |
| 52.000 inches |
| Shaft Maximum Diameter At Bearing: |
| 49.000 inches |
| Work Support Type: |
| Half bearing |
| Special Features: |
| Permanently calibrated hard-bearing |
| Shelf Life: |
| N/a |
| Unit Of Measure: |
| |
| Demilitarization: |
| No |
| Fiig: |
| Т137-е |
| |
