Terminal Quantity:

1

Overall Length:

0.600 inches

Overall Height:

0.250 inches

Overall Width:

0.500 inches

Operating Temperature Range:

-0.0/+120.0 degrees fahrenheit

Input Frequency Rating In Hertz:

0.000005

Receiver Frequency Rating:

0.005 kilohertz

Terminal Location:

Top

Mounting Method:

Screw

Terminal Type:

Connector, plug

Case Material:

Stainless steel

Special Features:

Piezoelectric crystal; 58 degrees instant angle; case; outer cylinder

Media For Which Designed:

Solid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A50110
