End Application:

F110-ge-100 aircraft engine

Special Features:

Qualitative inspection, no correlation of signal amplitude to crack size can be made, applicable to assembled engine

Functional Description:

Used during inspection of the hpc rotor stage 1, dovetail posts for crack detection

Reference Data And Literature:

T.O. 2j-f110-9

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
