Terminal Quantity:

1

Overall Length:

2.000 inches

Overall Height:

2.000 inches

Overall Width:

2.000 inches

End Application:

Nsn 6635-010-399-1772, p/n 9017072, detector, metal flaw

Receiver Frequency Rating:

50.0 kilohertz

Transmitter Frequency Rating:

5.0 kilohertz

Terminal Type:

Solder lug

Special Features:

Mfg name: probe, 5 mhz x-ducer, was called probe eddy current. Used to test material 10 to 20 plies thick. Has microdot connector

Media For Which Designed:

Solid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A50110
