**Terminal Quantity:**

1

**Overall Length:**

2.000 inches

**Overall Height:**

2.000 inches

**Overall Width:**

2.000 inches

**End Application:**

Nsn 6635-010-399-1772, p/n 9017072, detector, metal flaw

**Receiver Frequency Rating:**

50.0 kilohertz

**Transmitter Frequency Rating:**

5.0 kilohertz

**Terminal Type:**

Solder lug

**Special Features:**

Mfg name: probe, 5 mhz x-ducer, was called probe eddy current. Used to test material 10 to 20 plies thick. Has microdot connector

**Media For Which Designed:**

Solid

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A50110
