General Description:

Basic ultrasonic testing inspection kit; contains 3 contact transducers for flaw detection and thickness measurement, one 2.25 mhz 3/4 in. Diameter general purpose, one 5 mhz 1/4 in. Diameter high resolution, one 5 mhz 1/4 in. Diameter dual; 2 angle beam transducers for weld inspection, one 2.25 mhz 5/8 in. By 5/8 in. Aws style, one 5 mhz 1/2 in. Diameter quick change style; 4 angle beam wedges, one 45 aws style, one 60 aws style, one 45 abt style, one 60 abt style; 2 cables, one 6 ft bnc-bnc cable rg-58, one 6 ft bnc-microdot cable rg-174; 2 test blocks, one 5 step steel test block 0.1 in. To 0.5 in., one aws type dsc test block; 1 4 oz bottle couplant, medium viscosity; 1 5 oz tube heavy viscosity couplant; fitted carrying case with shoulder strap; all transducers include waveform and spectrum certification
