Carrying Case:

Provided

End Application:

Ndi inspection

Usage Design:

External

Indicator Type:

Electron-ray tube

Installation Design:

Portable

Test Type:

Distortion

Indicator Reading Type:

Single

Indicator Design:

Direct reading

Special Features:

Dim. 7.560 in.H, 14.410 in.W, 13.500 in. D; external battery charger, input voltage selectable 110v or 120 v ac; pulse rep. Freq 50 to 4000 hz

Functional Description:

Performs ultrasonic inspections for crack detection, corrosion and thickness testing

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T264-b
