Scale Calibration:

Automatic

Measurement Unit:

Inch and gram

Operation Method:

Manual

Unit Type:

Electronic

Load Receiver Type:

Flat head and hook and rod

Mounting Method:

Portable

Scale Range:

0-50lb; 0-25kg; 0-250n

Scale Smallest Increment Graduation:

0.05lb; 0.02kg; 0.2n

Control Device Type:

Automatic stop

Spring Type For Which Designed:

Compression and tension

Torque Indicating Wrench Usage Feature:

Not included

Spring Travel Gage:

Not included

Special Features:

Digital force gauge; ac/dc; 4 key pad basic controls; m40-110f operating temp; 7.0x2.7x1.52in; includes: stainless steel attachments, battery charger, allen wrench, manual & cushioned carry case.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-h
