

View Online at <https://aerobasegroup.com/nsn/6635-01-462-7532>

Operating Temperature Range:

+32.0/+120.0 degrees fahrenheit

End Application:

Nimitz class cvn

Input Current Type:

Dc

Input Voltage Rating In Volts:

9.0

Receiver Frequency Rating:

Between 20.0 kilohertz and 100.0 kilohertz

Special Features:

lultrasonic inspection system; pressure and vacuum leak detection; exhaust system leaks; heat exchangers, boiler, condensers; wind noise/water leaks; tanks, pipes, etc leak testing; electrical inspection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510I0
