Overall Length:

3.000 inches

Overall Height:

0.500 inches

Overall Width:

0.500 inches

End Application:

C-17 aircraft

Special Features:

Produces frequencies of 1-5 mhz operates in 1-3 mhz range. Contains a female microdot connector (microtech pn4-50-4 or equal)

Functional Description:

A straight pencil probe used in ndt inspection of Irus capable of detecting a 0.05 radius flaw using an eddyscope and titanium reference standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-h
