Product Name:

Proving ring

Special Features:

30, 000 lb capacity

Functional Description:

Used for calibrating load cells and materials testing machines w/ high deg. Accuracy

Material:

Aluminum alloy

Supplementary Features:

Tension & compression type

Test Data Document:

Astm e-74 standard (includes industry or association standards, individual manufactureer standards, etc.).

General Description:

200 division dial; adjustable vernier index; scale reading to 1/10 a division & interpolation to 1/20 per division; zero reading on no-load;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
