**Overall Length:**

12.000 inches

**Overall Height:**

9.000 inches

**Overall Width:**

12.000 inches

**End Application:**

Nose landing gear (nlg) wheel, c-17 aircraft, eddy current probe set r/n 17g133476-1, for the messier-bugatti designed wheels

**Product Name:**

Reference standard, eddy current, c-17

**Special Features:**

Item is a section of a nlg wheel half that has been machined with notches to represent artificial flaws

**Color:**

Gray

**Material:**

Aluminum

**Reference Data And Literature:**

Serd 130477

**Relationship To Similar Equipment:**

Not interchangeable, or a replacement for, or replaced by r/n 17g130428-1. Used to calibrate r/n 17g13133476-1 for testing of the nlg wheel designed by messier-bugatti

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
