Major Components:

Manual loader1

End Application:

6635-01-327-4461 (multitest torque calibration system); defense support program

Component Quantity:

1

Special Features:

Item name per vendor: mechanical loader; operates on 120 or 200 vac; includes extendible swivel monitor stand

Functional Description:

Ptesting and calibrating most torque wrenches, drivers, torque multipliers, non-impact pneumatic, electric nut runners, can be fixtured for testing and calibrating cable tensiometers and compression or tension gauges

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
