End Application:

F/a-22 raptor

Conductor Attachment Method:

4pin fischer connector

Product Name:

Eddy current probe

Special Features:

Plastic tip, ss back shell/working length 2 in, use reflection differentd type coil operating in 500 khz to 3 mhz, suitable for aluminum structure and low conductivity materials

Functional Description:

Designed to allow the use of the same probe when holes reamed larger diameter.Used check unusual hole size when a fixed size probe is unavailable

Relationship To Similar Equipment:

281 to .312 inches

Type/model Designation:

Spo-5965

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-h
