structures and low conductivity materials.  Functional Description:  Designed to detect flaws, cracks and the like on bolt holes and unusual hole sizes.  Shelf Life:  N/a  Unit Of Measure:  Demilitarization:  No  Fiig:	End Application:
Split end  Conductor Attachment Method: Four pin fischer connector  Special Features: Bott hole probe, with long wearing plastic tip, and stainless steel backshell. Uses reflection differential type coil, suitable for aluminum structures and low conductivity materials.  Functional Description: Designed to detect flaws, cracks and the like on bolt holes and unusual hole sizes.  Shelf Life: N/a  Unit Of Measure:  Demilitarization: No  Fiig:	F22 raptor
