End Application:

F22 raptor

Tip Termination Type:

Split end

Conductor Attachment Method:

Four pin fischer connector

Special Features:

Bolt hole probe, with long wearing plastic tip, and stainless steel backshell. Uses reflection differential type coil, suitable for aluminum structures and low conductivity materials.

Functional Description:

Designed to detect flaws, cracks and the like on bolt holes and unusual hole sizes.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
