End Application:

Spitfire, mini mite (4 pin fischer), hocking and rohmman scanners: f/a 22 raptor aircraft

Conductor Attachment Method:

4pin fischer connector

Special Features:

Oplastic tip, ss backshell, working length 2 inch. Use reflection differential type coil operating in 500 khz to 3 mhz. Suitable for aluminum structure and low conductivity materials, company name rotating scanner probe

Functional Description:

Designed to allow the use of the same probe when holes reamed larger diameter. Also check unusual hole size when a fixed size probe is unavailable

Relationship To Similar Equipment:

Similar to spo-5000 but expanded to larger diameter

Type/model Designation:

Spo-5965 .687-.750

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-h
