Overall Diameter:

Between 0.312 inches and 0.375 inches

End Application:

Spitfire, minimite (4 pin fischer)hocking and rohmann scanners; f/a 22 raptor aircraft

Conductor Attachment Method:

4 pin fischer connector

Special Features:

Plastic tip, ss back shell/working length 2 inches, use reflection differential type coil operating in 500 khz to 3 mhz. Suitable for aluminum structure and low conductivity materials, similar to spo-5000 but expanded to larger diameter

Functional Description:

Designed to allow the use of the same probe when holes reamed larger. Checks unusual hole size when a fixed size probe is unavailable

Type/model Designation:

Spo-5965

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-h
