**End Application:**

F/a-22 raptor

**Tip Termination Type:**

Plug

**Conductor Attachment Method:**

Friction

**Product Name:**

Eddy current probe

**Special Features:**

Plastic tip, ss backshell, working length 2 inch, uses reflection differentiated type coil operating in 500 khz to 3 mhz. Suitable for aluminum structure and low conductivity materials, company name rotating scanner probe; spo-5965 .625 - .687, expanding, 4 pin fischer, 200 khz - 3 mhz, 2" working length

**Relationship To Similar Equipment:**

Similar to spo-500 but expanded to larger diameter

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-h
