End Application:

F/a-22 raptor

Tip Termination Type:

Plug

Conductor Attachment Method:

Friction

Product Name:

Eddy current probe

Special Features:

Plastic tip, ss backshell, working length 2 inch, uses reflection differentiated type coil operating in 500 khz to 3 mhz. Suitable for aluminum structure and low conductivity materials, company name rotating scanner probe; spo-5965 .625 - .687, expanding, 4 pin fischer, 200 khz - 3 mhz, 2" working length

Relationship To Similar Equipment:

Similar to spo-500 but expanded to larger diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-h
