Overall Diameter:

0.875 inches

End Application:

F/a 22 raptor

Receiver Frequency Rating:

2250.0 kilohertz

Terminal Location:

Side

Special Features:

Collor yellow indicates 2.25mhz, dfr style removable delay line fingertip transducer designed for thickness gauging and flw detection of thin flat smooth material

Media For Which Designed:

Solid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A50110
