Product Name:

Lasernet fines c

Functional Description:

Combines standard oil analysis techniques of particle counting and shape classification

General Description:

Cperforms shape analysis, wear particul identificaiton and machine conditon assessment; identifies and quantifies percent free water; handles over 1000000 particles/ml; fluid viscosities up to 350 cst

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
