Overall Length:

14.000 inches

Overall Height:

1.000 inches

Overall Width:

3.000 inches

End Application:

C17-a aircraft

Product Name:

Reference standard composite stitched

Special Features:

Material stitched; carbon epoxy; painted finish; color gray; operating temperature minus 40 degrees f to 125 degrees f

Reference Data And Literature:

1c-17a-36

General Description:

Used to establish calibration of the baseline that represents the material thickness being inspected

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
