Product Name:

Handheld particle counter

General Description:

Solid state laser diode; measures temperature and relative humidity; offers choice of four languages; sizing sensitivities from 0.3um to 5.0um; sample flow rate of 0.1cfm/2.8 lpm; stores up to 500 sets of data in memory; battery operated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
