Operation Method:

Manual

Unit Type:

Weighing scale

Mounting Method:

Portable

Scale Range:

0 to 200 lbs

Spring Type For Which Designed:

Compression or compression

Special Features:

2.25 inch dial for improved resolution and readability, peak hold button, universal mounting plate, ergonomic shape and improved accuracy of +/- .5% of full scale; dial rotates 360 degrees for taring/ peak hold button captures peak readings and can be easily and quickly returned to zero; weighs 4.7 lbs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T398-h
