Special Features:

7 inch; 150 kv; 3.7 mj (5.0 mhu) mode heat content rotating anode insert; designed for ct scanners; tungsten-rhenium facing on molybdenum with a graphite backed target; 6000 watt anode cooling rate; 4500 watt anode heat dissipation; perpendicular to port face reference axis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
