End Application:

F-22 aircraft

Product Name:

Kit, f-22 engine thrust mount

Special Features:

Consists of fet-3240 probe and fixture, fet-3241 probe and fixture, fet-3242 probe and fixture, electrical cable, airframe reference standard, engine reference standard, and case

Functional Description:

Used with metal flaw detector 6635-01-055-9520 during eddy current testing of engine thrust mounts 5hp71272-107 and thrust pins 5hp71271-111

Reference Data And Literature:

Serd 0071202001

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
