Base Material Thickness:

0.180 millimeters

Product Name:

Indx-mx125-2 4x15.7in 10x40cm

Special Features:

Thickness; emulsion 25 microns, 12.5 each side. Overcoat 10 microns, 5 each side. Total 0.22 mm. Lead screens 1.5 microns protective overcoat. 27.5 microns lead, 70 microns paper. Cut tosize. Use with led safelight (660nm red) or a red safelight filter. Unexposed storage 50 to 70 degree f. Exposed in cool dry place. Processes 60 to 80 degree f

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T140-b
