End Application:

4920-01-509-5989 shop set, non-destructive inspection

Product Name:

Sonoglide ultra pure 40

Special Features:

Temp range: minus 60f to pos 250f, water soluble, very low corrosion potential on titanium, aluminum, steel and its alloys

Functional Description:

Should be used where low levels of halogens and sulfur are critical and/or where superior temperature range and very slow drying characteristics are desired

Relationship To Similar Equipment:

Superior replacement for propylene glycol, glycerine, hamclear 712 and 8307, and centurian uc7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
