**End Application:**

F-22 raptor

**Product Name:**

Rf zonal imaging tool

**Special Features:**

Produces two dimensional image of aircraft radar hotspots and their strength up to 18ft from floor

**Functional Description:**

Non-destructive rail-mounted radar used to detect deterioration or damage to radar deflection capability to aircraft surfaces

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
