Special Features:

Individually and simultaneously tests each wrist strap and heel grounder for proper connection and resistivity value in less than 3 seconds; automatic calibration; measures from 100 kohms to 100 megohms; adjustable resistivity limits; ac or dc powered; led, low battery buzzer; stand or wall mounted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
