Mounting Type:

Floor

Current Type:

Ac

Product Name:

Hydrostatic test system

Voltage In Volts:

110.0

Phase:

Single

Special Features:

Consists of control console, computer and monitor, light array pcb, battery backup, micro valve stack, air operated water pump with tank, ethernet switch, weigh station, electronic scale, barcode base station, scan gun, dxd transducer

Frequency In Hertz:

60.0

Functional Description:

R4 test system performs water jacket testing of compressed gas cylinders using expansion bowl and pressurizing up to 5/3 dot rating

Reference Data And Literature:

Galisco manual 21-11-1177

Supplementary Features:

Requires 120psi compressed air and water supply for operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T361-f
