Carrying Case:

Provided

Accessory Components And Quantity:

Steel shackles and pins

Indicator Type:

Indicator dial

Scale Quantity:

1

Scale Range:

+0.0/+4000.0 pounds

Mounting Method:

Shackle

Temperature Compensator:

Not included

Deflection Angle Adjuster:

Included

Product Name:

Ap dynamometer

Functional Classification:

Aa-8.8

Functional Description:

5in diameter 4000lb capacity used for critical and overhead lifting applications

Entry Date:

10-04-14

Special Test Features:

Periodic proof load 150pct annual

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-m
