Overall Length:
25.000 inches
Overall Height:
9.000 inches
Overall Width:
20.000 inches
End Application:
F101-ge-102 aircraft engine
Unpackaged Unit Weight:
20.000 pounds
Product Name:
On-wing ultrasonic inspection set for the fan stg 1 disk dovetail post corner 1
Special Features:
Consists of: ultrasonic probes 389-070-331 2ea and 389-074-361 2ea, reference standard ut-2082 1ea, ultrasonic cable c-033 2ea, velcro
straps 94905k13 32x1in 1ea, guide tube 1300 1ea, pitot cover f10-006 1ea, glycerin g33-500 500ml bottle 1ea, storage container im2700
Functional Description:
Used to inspect the corner 1 disk dovetail post of stage 1 fan disk while installed within assembled engine
Reference Data And Literature:
Serd 5130
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
