Product Name:

Rh600 hydrogen determinator

Special Features:

Measures hydrogen in a wide variety of metals, refractories, and other inorganic materials, employing the inert gas fusion principle; weight:

420 lb (191 kg); dimensions: 31" h x 26" w x 30" d; elec power: 230v, 50/60 hz, single phase, 40a, 31400 btu/hr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
