Overall Length:

25.000 inches

Overall Height:

10.000 inches

Overall Width:

20.000 inches

End Application:

F101-ge-102 aircraft engine

Product Name:

Inspection set

Special Features:

Consists of: ultrasonic probes 2ea 389-073-501 389-074-651 and 389-074-641, 1ea reference standard ut-2118, 2ea switch box 389-077-830, cables 2ea 118-140-024 290-543-701 c-033, 1ea water container e06059-05, 1ea storage container i700

Functional Description:

Used to inspect the complete length of the dovetails pressure faces of the stage 1 fan disk while installed in engine

Reference Data And Literature:

Serd 5134

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
