Carrying Case:

Provided

Installation Design:

Portable

Unpackaged Unit Weight:

3.0 kilograms

Product Name:

Portable ultrasonic flaw detector

Functional Classification:

Aa-13.4

Special Features:

282mm h x 171 w x 159 d; nimh battery or line voltage operation; lcd display; rs232 interface; 0.25 to 25mhz freq range

Functional Description:

Used to inspect for flaws and/or thickness of materials

Entry Date:

11-06-28

Test Data Document:

En 12 668-1 standard (includes industry or association standards, individual manufactureer standards, etc.).

Specification Data:

58536-a-a-58073 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T264-b
