End Application:

Nuclear equipment

Torque Capacity:

200.00 inch-pounds

Product Name:

Rotary torque sensor

Special Features:

Operating temperature: -55.00 to 120.00 deg. C.; resistance: 1000 ohms; maximum rpm: 5000 rpm; sensor material: alloy steel; housing material: alloy aluminum; 3/8 inch drive;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
