General Description:

Capable of generating 100, 000 lbf of force in both tension and compression. Three-column moving frame, four-column fixed frame actuator, servo valve, manifold single-phase electric motor (1/8hp, 85rpm, 115v, 3.0a). Hydraulic power unit 1.5hp, 120v, 30a electric motor requires 110 v 30 amp 60 hz ac power manifold block, hydraulic reservoir, shut-off switch drain plug

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
