End Application:

Strength tester

Product Name:

13-60 burst tester for paper and foils

Special Features:

The clamping pressure is measured with a pressure transducer and displayed in bar/psi, depth 565mm, height 495mm, width 517mm, weight 65kg, number of test performed with diaphragm stored in memory, materials paper/foils, flow rate 95ml/min, measured range 20 bars,

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-m
