Overall Width:

17.000 inches

Outside Width:

57.000 inches

Outside Height:

17.000 inches

End Application:

Afmetcal facilities

Furnished Items And Quantity:

Tsi 8390 wind tunnel, mensor 4040 differential pressure transmitter, heise hpo absolute pressre transmitter, vaisala relative humidity/temperatur transmitter, 24v power supply, dart 250g variable speed dc motor controller, auto/manual control selector & airspeed variable controls, desktop computer, custom wind tunnel software

Product Name:

Wind tunnel, automatic

Special Features:

Air veloci type 6 ranges, 0.15 to 0.3m/s, 0.3 to 1.25m/s, 1.25 to 3m/s, 3 to 7.5m/s, 7.5 to 10m/s, 10 to 45m/s; absolute pressure transmitter data - 0 to 20psia, calibrated range 12 - 17psia; differentil pressure transmitter - 0 to 18 torr, calibrated range 0 - 10torr; relative humidity/temperature transmitter - r/n hmp001 - temp -40 to 60 degrees c, calibrated range 15 to 30 degrees c, humidi type 0 to 100pct rh calibrated range 0 - 70pct rh

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
